

## **Lockdown**

Times are dark when it was out

We'd look back to our former freedom

It haunts us when we feel we are safe

But the truth is we never are

And this is life as we know it ... while the ghost is in town

We will overcome this invisible monster

We will stand up and fight

We will pull through

Even if we feel alone

And this is life as we know it ... whilst the ghost is in  
town

Lottie
